* Primary Pricer:

Angela AC Chien/Taiwan/IBM@IBMTW

* When will Customer place the order? [\[HINT\]](#)

2009/03/31

Bids 01 No.

* Is this a GCO Bid?

Yes No

* Second stage fulfillment preferred: [\[Second Stage Guidelines\]](#)

Yes No No Preference

<NOTE: US capability only>

Account Representative Comments : [\[What Information Is Placed In This Field\]](#)

8853I8T build to MTM

EC Creator Instruction (General Comments):

* Is a new MTM required: Yes No

* Please provide your justification: This is ISTC i model : change options config., remove std. memory, ADD cpu, memory, hdd, different with original MTM config.

* Is a Solutions Assurance Review (SAR) required for this product offering? Yes No [\[HINT\]](#)

BUILD FROM MACHINE TYPE MODEL

* What is the machine type model building from: 8853 - G1V

(Information pulled from the OPICM database.)

Processor	MEM	HDD	CD/DVD	ADAPTERS	OS

Third Party Options Installed

3rd Party Options Installed [\[How to complete this section?\]](#)

Additional Options Shipped as Accessory

<Note: Accessories are only included on the Fact Sheet to verify compatibility. They must be placed as a line item on the order for them to be shipped/ received.>

Additional Options Shipped as Accessory [\[How to complete this section?\]](#)

EXTERNAL HARDWARE ADDITIONS TO THE MACHINE TYPE MODEL (MTM)

Standard Requirements :

Keyboard

Mouse

Are there Special Requirements ?

Yes No

* Is Standard Operating System or Application Software included in the BOM above?[\[HINT\]](#) Yes No

WARRANTY

* Who provides base machine service & support?

IBM Other

* Please choose one of these:

Standard Warranty

Service Pack

Seperate Contract / Agreement

* Are there any unique warranty requirements? Yes No

OTHER

Does your customer require this configuration to have a unique description, which would then be displayed on their invoicing/shipping documentation?

<NOTE: For US/EMEA models only>

Yes No

[Country Names: [LEADS naming convention and ISO Equivalent](#)]

GEOGRAPHY

A complex configuration may take several weeks to build . The system has calculated your complex configuration First Rollout Date to be **2009/04/27** .
Contact the development team for assistance .

* Total estimated rollout quantity 150
